Magritte s Apple Klaas Verplancke,2016-10-11 A man named Ren floats through the world of his dreams and imagination, fulfilling his desire to become a painter--of apples and hats, apple hats, apple-these and apple-thats. In his paintings, leaves are lips, baguettes are noses, the right side is never up, and the upside is never down. Award-winning author Klaas Verplancke mashes everyday objects and words together in ways that are guaranteed to make kids laugh and think. Ren Magritte (Belgian, 1898-1967), one of the world's most beloved artists, created whimsical, subversive paintings that helped launch the popularity of surrealism. His works combined words and images in novel, thought-provoking ways, and used humor and ordinary subjects to inspire viewers to question the world around them.

Michelangelo Carmen C. Bambach, Claire Barry, Francesco Caglioti, Caroline Elam, Marcella Marongiu, Mauro Mussolin, 2017-11-05 Consummate painter, draftsman, sculptor, and architect, Michelangelo Buonarroti (1475–1564) was celebrated for his *disegno*, a term that embraces both drawing and conceptual design, which was considered in the Renaissance to be the foundation of all artistic disciplines. To his contemporary Giorgio Vasari, Michelangelo was “the divine draftsman and designer” whose work embodied the unity of the arts. Beautifully illustrated with more than 350 drawings, paintings, sculptures, and architectural views, this book establishes the centrality of *disegno* to Michelangelo’s work. Carmen C. Bambach presents a comprehensive and engaging narrative of the artist’s long career in Florence and Rome, beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen-year appointment as chief architect of Saint Peter’s Basilica at the Vatican. The chapters relate Michelangelo’s compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions—such as the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy (Medici Chapel) in Florence, and Saint Peter’s—offering fresh insights into his creative process. Also explored are Michelangelo’s influential role as a master and teacher of *disegno*, his literary and spiritual interests, and the virtuoso drawings he made as gifts for intimate friends, such as the nobleman Tommaso de’ Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach’s text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

The Architecture of Pica Ciamarra Associati Antonietta Iolanda Lima, 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d’architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as ‘informed fragments’. This monograph is the result of an

intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlight the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embracing innovation and tradition to an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life.

The Cat in Art Stefano Zuffi, 2007-04 Almost from the beginning of art, humans have portrayed cats. The animal originally domesticated for the humble purpose of catching mice was already a goddess in ancient Egypt and a beloved household pet in ancient Rome. Throughout history, cats have been a beautiful vessel for symbolic meanings, ranging from dark unruly sensuality to perfect domestic tranquillity. In this book, cats inhabit 170 art masterpieces. Sometimes they are the stars of the work and sometimes they are working their magic from the corners of rooms (in which case both the whole work and a detail showing the cat are both illustrated). Here are paintings by Van Eyck, Raphael, Leonardo, Bruegel, Rembrandt, Chardin, Gainsborough, Manet, Renoir, Bonnard, Gauguin, Matisse, Balthus, Picasso, Warhol and many other famous artists. Stefano Zuffi's charming text tells us what it all means. The cats, meanwhile, are beautiful, seductive and mysterious.

Funny Machines for George the Sheep, 2014-05-08 This delightful introduction to the inventions of Leonardo da Vinci teaches young readers about the painstaking but rewarding art of design and discovery. George the sheep is happy living outside in his meadow except for one thing: when it rains, he shrinks to the size of a mouse; when the sun comes out he grows enormous. Befuddled, his owner Leon sets out to find a way to shelter George from the rain. A huge set of bat wings to dry his fur? A wheeled chariot to keep out the wet? Finally he alights on the perfect solution—a large umbrella. But when the wind plays havoc with this contraption Leon must put pencil to paper once again to come up with a solution. Through careful

measuring, sketching, and a truly indefatigable spirit, Leon, like his fifteenth-century namesake, solves the kinds of problems that have challenged inventors throughout history. Cleverly invoking the mechanical genius of Leonardo da Vinci, this delightful children's book explores the art of invention through illustrations and an entertaining story.

The Passion of Artemisia Susan Vreeland, 2002-12-31 Susan Vreeland set a high standard with *Girl in Hyacinth Blue*.... The *Passion of Artemisia* is even better.... Vreeland's unsentimental prose turns the factual Artemisia into a fictional heroine you won't soon forget. —People A true-to-life novel of one of the few female post-Renaissance painters to achieve fame during her own era against great struggle. Artemisia Gentileschi led a remarkably modern life. Vreeland tells Artemisia's captivating story, beginning with her public humiliation in a rape trial at the age of eighteen, and continuing through her father's betrayal, her marriage of convenience, motherhood, and growing fame as an artist. Set against the glorious backdrops of Rome, Florence, Genoa, and Naples, inhabited by historical characters such as Galileo and Cosimo de' Medici II, and filled with rich details about life as a seventeenth-century painter, Vreeland creates an inspiring story about one woman's lifelong struggle to reconcile career and family, passion and genius.

Caravaggio Stefano Zuffi, 2003-09 The Rizzoli Quadrifolio art series combines the most popular artists with authoritative text and a fresh, unique format destined to appeal to children and adults alike. Featuring sixteen pages that open up to four times the original size, this series allows the reader to delve into details of individual paintings or see a horizontal development in a fresco. With stunning color reproductions, expert commentary, and a revolutionary format, the Rizzoli Quadrifolios is a pioneering art series. Following the success of Michelangelo, the Sistine Chapel and Vincent Van Gogh are two new books on artists whose work continues to inspire: Klimt and Caravaggio. Gustav Klimt's work remains widely popular today, admired for the sensual portraits of women and the signature use of gold. Gustav Klimt includes thirty-one of the Viennese artist's works, from his famous *The Kiss* to the vast Beethoven Frieze. Caravaggio has enjoyed renewed popularity, inspired by recent biographies investigating his fascinating life and work. He is more fashionable today than any time since the early seventeenth-century (New Republic, January 17, 2000). Caravaggio highlights twenty-eight paintings by the tormented Baroque master, including *Judith Beheading Holofernes* and *the Calling of Saint Matthew*.

Titian Stefano Zuffi, 2012 The Art Mysteries series examines several highly regarded masterpieces in an attempt to unravel the mysteries that surround them. Edited by Marco Carminati and Stefano Zuffi, they present an up-to-date and spectacular reading of famous paintings, investi

Drawing the Sun Bruno Munari, 2004 A playful and vibrant guide to drawing the sun In *Drawing the Sun*, Bruno Munari

suggests: When drawing the sun, try to have on hand colored paper, chalk, felt-tip markers, crayons, pencils, ballpoint pens--you can draw a sun with any one of them.
